

Chemical Logistics Cooperation in Central and Eastern Europe

2nd ChemLog Dissemination Conference

15 April 2010 in Leuna

Kulturhaus Leuna
cCe Kongress und Tagungszentrum

ChemLog is a European cooperation project between regional authorities, chemical industry associations and scientific institutions from Germany, Poland, Czech Republic, Slovakia, Hungary, Austria and Italy with the objective to strengthen competitiveness of the chemical industry by improving framework conditions for supply chain management in Central and Eastern Europe.

ChemLog wants to overcome barriers for transnational transport in the West-East and East-West dimension by initiating a broad process of exchange of experience and facilitating the development of transnational infrastructure projects with high relevance for the chemical industry.

ChemLog respectively the project partners aim to establish fruitful cooperation with relevant administrative entities from regional, national and European level, chambers, associations, enterprises and logistic providers to identify priorities and find common solutions for the improvement of logistic infrastructure in Central and Eastern Europe.

ChemLog invites interested stakeholders to contribute to these objectives. With the organisation of the second Dissemination Conference on 15th of April in Leuna (Saxony-Anhalt/Germany, the project partners will present current results of activities and discuss it with representatives from politics and industry. The conference should pave the way for further intensification of exchange of experience and improvement of framework conditions for chemical logistics in Central and Eastern Europe. We are looking forward to a fruitful discussion.

More information: www.chemlog.info

The project is implemented through the Central Europe Programme, cofinanced by the ERDF. www.central2013.eu

Chemical Logistics Cooperation in Central and Eastern Europe

2nd ChemLog Dissemination Conference

15 April 2010 in Leuna

Kulturhaus Leuna
cCe Kongress und Tagungszentrum

Agenda

9:00 Registration and Coffee

9:30 Welcome

Dr. Reiner Haseloff, Minister for Economy and Labour, Saxony-Anhalt
Andreas Hiltermann, Managing Director InfraLeuna GmbH

9:45 – 11:00 Challenges for Chemical Logistics in Central and Eastern Europe

The chemical industry in Saxony-Anhalt in the focus of transport and logistics
